

Factsheet

Specification

Investment goal

The investment goal is to achieve a high asset protection in the medium to the long term, especially when faced with financial and currency crisis as well as tendencies to monetary depreciation. In the interest of the investor, the Fund strives to maintain and increase the purchasing power of the capital invested.

As the Fund has its domicile and warehouse of the physical silver in the Principality of Liechtenstein, the Fund can consequently ensure a high level of property security.

Investment strategy

The Fund purchases, holds and warehouses at least 95% of silver in physical form. The Fund deliberately abstains from using derivative investment instruments.

Specific aspectsValue added tax (VAT)

The Fund has organisational structures that authorize the purchase of physical silver without the burden of value added tax.

Physical redemption

When redeeming fund units, the investor may request delivery of physical silver.
